

Solar Powered LED Beacons

Introducing Q-lights Solar powered IP54 LED beacons using high bright LED's.

There are 3 models/sizes available in this series **S80**, **S100** and **S125** with a diameter of Ø80, Ø100 and Ø125 respectively.

These units are ideal for applications where the only source of power available is the sun. (S.A. Has plenty of sun, but not much electricity...).

They have a built in day night sensor with 2 setting options.

1. On continuously day & night.
2. On at night time only.

Colours available are Red, Amber, Green & Blue.
